Education

2017 - 2020

Bsc Computer Science

Gandhi Vocational College, Guna
Jiwaji University

Skills Summary

- Three.js
- WebGL
- ReactJs
- Redux Toolkit
- Github API
- NextJs
- TypeScript & JavaScript
- HTML & CSS
- Firebase
- React Hooks
- Tailwind CSS
- Figma
- Material UI
- Storybook
- SCSS

Language

- English
- Hindi

Naman Jain

Frontend Developer

Experienced software developer with 2.5+ years in web development. Proficient in Typescript, JavaScript, Reactjs, Nextjs & Redux. Skilled in building web apps with modular code. Eager to learn new technologies.

Experience

December 2022 - Present

Visualith | Delhi

Frontend Developer

- **Data Flow:** I built a feature that lets you organize data hierarchically, just like how you'd structure it in an organization, project, and cluster setup.
- **Real-time Log Streaming:** Implemented live log streaming via long polling, directly connected to Jenkins, enabling real-time tracking and analysis, boosting operational efficiency.
- **GitHub Integration for Deployment:** Integrated GitHub repositories for seamless application deployment, accelerating deployment speed and accuracy.
- **I added features for creating, deleting, and editing projects, clusters, and organization.** Also, I made it easy to search, filter, and sort for a smoother user experience

Projects

Visualith, Cloud App

- **Features:** Clusters Deployment on AWS Cloud, Application Deployment
- **Tech Stack:** ReactJs, Redux Toolkit, Jenkins, Kubernetes, Material UI, NodeJS, Github API

Traincore.ai

- **Features:** Prompts Management, Responsiveness, Management of data through frontend using localStorage, Graphs & Charts Integration
- **Tech Stack:** Next.JS, Content Stack, Storybook, TypeScript, RC Table

Ling Ling, Hotel Website

- **Features:** Accordion, Animated Header, Responsiveness, Dynamic website controlled by client using CMS
- **Tech Stack:** Nextjs, TypeScript, SCSS, HTML, Storybook, CMS
